WELCOME TO THE KENTAUR UNIVERSE

**KENTAUR'S UNIVERSE
CONSISTS OF PEOPLE.
AND YOU ARE PART OF IT.**

AT KENTAUR WE TAKE AN INTERST IN ALL THE DIFFERENT PEOPLE WHO PUT ON PROFESSIONAL WORKING CLOTHES EVERY DAY IN MANY DIFFERENT INDUSTRIES.

We are interested in the needs of industrial laundries. Our collaboration with laundries ensures that working clothes from Kentaur can be washed and handled professionally. With the shared knowledge we have accumulated with our customers of the many different situations in which working clothes are used, we design and develop high quality clothes with excellent functionality. Your experience is the core of our product development.

No matter where you meet Kentaur, there is a strong organization to back us up. We are inquisitive, full of ideas, and dedicated people who design, purchase, develop products, sew and adapt, develop our business, communicate, and manage Kentaur. From our sewing facilities to sales, we are concerned with supplying work wear that meets your needs, and we hope it exceeds your expectations. We always test to see whether we have achieved our ambitions.

We look forward to getting your reactions to our new collection for 2021/2022. Enjoy it!

Your Kentaur Team

RESPONSIBILITY AND CHOICE OF MATERIALS ON THE
FOLLOWING PAGES.

VALUE FOR TEXTILE SERVICE

WORK WEAR IS NOT JUST WHITE COATS

At Kentaur, durable work wear means more than just a white coat or a pair of pants. It is a complex product based on knowledge of market factors such as design, functionality and suitability for washing, not forgetting CSR and sustainability. Added to that is our focus on always having items in stock, our Value Added Service (VAS), a long PLC (Product Life Cycle), and not least, delivery at the agreed upon time as an absolute requirement. These values combined, are the foundation the foundation for our Value for Textile Service, which means we set high demands on ourselves for constant optimization and product innovation.

KENTAUR'S SUCCES FACTORS

RELIABLE DELIVERY AND AGILITY

We deliver on time as agreed, and we are flexible and prepared for change.

KEEPING PRODUCT ECONOMY IN MIND

Our products are developed and tested with consideration for our customers' long-term operating economy.

MARKET KNOWLEDGE

We focus on Textile Service and know what the demands are. We focus on LEAN processes and a constant search for optimization.

DESIGN AND INNOVATION

Our expertise along the value chain is essential to developing our products – with regard to both innovative design and functionality. The aim is to give our users a better working day.

SERVICE

Our VAS-CENTRE, QRM (Quick Response Manufacturing), internal expertise and digital "My Kentaur" platform make our customers' daily work easier.

CSR AND SUSTAINABILITY

We take responsibility – we monitor and develop value chain demands and the concept of viable work wear in the green trend with our Work.Wear&Care strategy.

OUR VISION

**WE CREATE VALUE FOR
TEXTILE SERVICE!
OUR VISION IS TO BE THE
PREFERRED SUPPLIER OF
LIGHT OCCUPATIONAL
CLOTHING FOR TEXTILE
SERVICES AND PROFESSIONAL
PARTNERS IN EUROPE.**

OUR MISSION

**WE WANT TO MAKE A DIFFERENCE
IN THE MARKET THROUGH SUSTAINABILITY,
COLLECTIONS, SERVICE, INNOVATION AND
DESIGN, QUALITY AND HIGH CONSISTENCY
OF SUPPLY.**

At Kentaur we make a point every day of taking more responsibility. This is an element of our sustainable strategy, Work.Wear&Care. We want to take responsibility for the industry we are part of, and it is our ambition to be one of the most sustainable suppliers of working clothes for the Textile Service industry. We aim to make sustainable and climate-friendly working clothes available for everyone every day, as a natural and responsible choice.

At Kentaur we define sustainable and climate-friendly working clothes as clothes which are:

- Of high quality
- Durable and have a long lifetime
- Made of materials with sustainability factors (reclaimed polyester (rPES) TENCEL™ Lyocell, Fairtrade® Cotton, sourcing Better Cotton (BCI))
- Produced socially responsible
- Produced and delivered with the least possible climate impact and with continual improvement

Work.Wear&Care also includes labels and certifications which help to improve production methods to benefit the environment, and to equalize and improve living conditions socially and economically in the textile industry around the world.

SUSTAINABLE DEVELOPMENT GOALS

Clothing and the textile industry in general are sources of pollution that affect both the environment and the people who work in the industry. As a company, we have an obligation, therefore, to protect the environment as well as people.

When we think of sustainability, we do not just look at the product. We work with whole entities, which means that all links in the supply chain are important. Naturally, the UN's 17 Sustainable Development Goals are also part of our Work.Wear&Care sustainability strategy.

At Kentaur we seek to reduce our negative impact and increase our potential positive influence in the areas where we can in fact make a specific and measurable difference.

The following Sustainable Development Goals and subsequent objectives have priority in Kentaur's sustainability strategy, and they give an idea of the beacons, and ambitions we will be following up to 2030+.

SOCIAL RESPONSIBILITY

Goal 8 – Target 8.5: To achieve full and decent employment with equal pay..

Target 8.8: To protect labour rights and promote safe working environments.

We will ensure decent jobs in the Kentaur Group, and at the same time influence and encourage suppliers to live up to the same obligations and integrate them in their sphere of influence.

It is our aim:

- Reduction of absence due to illness by 25%.
- To have zero accidents at work.

- All production sites will have amfori BSCI auditing schemes at minimum level B by 2022.
- All suppliers of fabrics and accessories must be screened for social compliance certification in accordance with an accepted standard such as BSCI or Oeko-tex SteP. (Or alternatively e.g. SA8000, FLA, FWF, WRAP, GOTS or Fairtrade textile production).
- We recruit our employees on the basis of their qualifications – we want a balanced gender distribution throughout Kentaur, with equal pay for work of the same value.
- Kentaur seeks to create economic opportunities locally – 100% of employees at our production sites must have at least a minimum living wage after six months' seniority.

RESPONSIBLE PRODUCTS AND RESPONSIBLE USE OF RESOURCES

Goal 12 – Target 12.2: Sustainable management and efficient use of natural resources.

We wish to achieve a 100% sustainable input of materials which are renewable, or can be recycled or re-used.

It is our aim:

- That 75% of Kentaur's own production of goods will be products with the "Sustainable Kentaur" label in 2025 – with 50% of the cotton sourced as Better Cotton.
- That Kentaur's fabric waste must be reduced, or used and/or re-used.
- That Kentaur will assist with the re-use of our products at the end of their life cycle.

CLIMATE RESPONSIBILITY

Goal 13 – Target 13.2: Integrate measures against climate change into policies.

We aim to be a climate-friendly company, and our goal is a 50% reduction in energy consumption and to be CO2 neutral by 2030.

THE GLOBAL GOALS
For Sustainable Development

WE SUPPORT

Trade with purpose

RESPONSIBILITY

By changing the way we act and thinking of new possibilities, we can make a difference. In addition to Kentaur's focus on the Sustainable Development Goals, our responsibility can also be seen in our work with the **UN GLOBAL COMPACT** and **AMFORI BSCI**.

The **UN GLOBAL COMPACT** is the world's largest sustainable initiative for companies. As a member, this initiative is the foundation of our daily efforts for sustainability. The UN Global Compact comprises 10 principles divided into four main areas: Human rights, Working conditions, the Environment and Fighting Corruption.

AMFORI BSCI makes demands and improves social conditions in global supply chains. As a member of amfori BSCI, Kentaur is committed to living up to these demands. Our BSCI Code of Conduct has been signed by all of our manufacturers and 78% of our suppliers of fabrics and accessories. The remaining 22% comply with their own Codes of Conduct, which have similar requirements to our BSCI Code of Conduct.

amfori BSCI operates with 11 principles, and audits are regularly carried out by independent auditing firms.

1. Rights to freedom of association and collective negotiations
2. No discrimination
3. No forced labour
4. No child labour
5. Special protection for young employees
6. No insecure employment
7. Reasonable working hours
8. Fair pay
9. Working environment and safety
10. Ethical business practices
11. Protection of the environment

SUSTAINABLE CHOICE OF MATERIALS

The Sustainable Kentaur label is used on products in which focus has been specially directed on sustainability in the choice of materials. This means that the clothing includes fibers in the form of TENCEL™ Lyocell, REPREEVE® recycled polyester or Fairtrade® Cotton, or that the cotton fiber is sourced as Better Cotton.

New sustainable materials are constantly being developed, and Kentaur follows these developments closely, so that we can offer even more sustainable items.

BCI Kentaur is proud to be a member of the Better Cotton Initiative(BCI), and we have thereby committed ourselves to improve cotton cultivation globally.

The Better Cotton Initiative(BCI) trains farmers in more effective use of water, better care for the health of the soil and natural habitats, reducing the use of the most hazardous chemicals, and respect for employees' rights and well-being. Better Cotton serves as Mass Balance accounts, and is physically traceable to the end product. BCI benefit from the demand for Better Cotton in quantities corresponding to our demand.

See bettercotton.org/massbalance for more details. Kentaur is committed to buying 50% of our cotton as more sustainable cotton before 2025. At present, sustainable cotton at Kentaur comprises Better Cotton and Fairtrade cotton.

FAIRTRADE® COTTON works specifically to improve living and working conditions for cotton farmers, and for sustainable production of raw materials with consideration for the environ-

ment. Fairtrade® Cotton is based on a chain-of-custody, which ensures that the cotton is traceable all along the supply chain.

REPREEVE® RECYCLED POLYESTER (rPES) is made from plastic bottles. REPREEVE® works to create a fantastic loop which reclaims refuse to make our soil, seas, air and natural resources sustainable for coming generations. These textiles, made from recycled polyester, are included as a valuable resource with reduced environmental impact in our items labelled **SUSTAINABLE KENTAUR**.

TENCEL™ Lyocell fiber has acquired a praiseworthy reputation for their environmentally responsible closed loop production process that transforms wood pulp to cellulose fiber with highly effective use of resources and low environmental impact. In this way process water and solvents are re-used with a recovery rate of more than 99%.

CERTIFICATIONS

To safeguard the user and the environment.

STANDARD 100 by OEKO-TEX® assures the consumer that no components of a Kentaur product contain substances that are harmful to health or the environment in greater quantities than those permitted in product class II (Products in contact with skin).

STeP by OEKO-TEX® ensures permanent implementation of environment-friendly and sustainable production processes, and optimizes health, safety and socially acceptable working conditions. Certification is founded on transparency and traceability in the supply chain, and comprises an extensive analysis of chemical control, management of environmental impact, environment management, working environment and safety, social responsibility (CSR) and quality management. This certification is for production facilities in all steps of the process, from fiber production, spinning, weaving, knitting, dyeing, printing and finishing, and in sewing facilities or other processing to finished products.

MADE IN GREEN by OEKO-TEX® is a label for products that comply with the requirements of STANDARD 100 by OEKO-TEX® and are also produced by a STeP certified company. The MADE IN GREEN by OEKO-TEX® label which is shown by the products in the catalog only covers the fabrics. They are produced by an environment-friendly company certified by STeP by OEKO-TEX®.

BLUESIGN® focuses on minimizing the textile industry's environmental impact and ensures that the processes used in manufacture are as sustainable as possible. It includes focus on dyes and other chemicals in general in connection with textile production. Applies only to quality 1412.

AT YOUR SERVICE

At Kentaur we know the requirements of Textile Service and the complexity of the industry.

We know that our standard range accommodates the great majority of these requirements, and that is what we constantly strive for. At the same time, we are also aware that our customers or end users may have wishes that go beyond our standard collections. We therefore have a number of different services available, which make it easy for our customers to carry out assignments, however complex they are, with different and flexible solutions.

QUICK RESPONSE MANUFACTURING (QRM)

Kentaur's QRM strategy focuses on the value of speed. Among other things, this means greater focus on a single total delivery rather than part deliveries, a more dynamic approach to varying bottlenecks, and endeavours to reduce delivery times. Especially in the case of selected items, supplementary items and other customer-specific elements, we endeavour to deliver within 10-20 working days.

VALUE ADDED SERVICE (VAS)

Kentaur's VAS strategy creates value for you and your customers by adapting and personalising the standard range.

With our expertise and knowledge of the product range, we can guide you to the best solution, with flexible suggestions adapted to the customer. Kentaur offers to develop standard items at its own logistics center, and we can therefore meet your wishes for only one supplier – that is full service!

EMBROIDERY

Kentaur offers smart and exclusive embroidery of both logos and names. The thread is hard wearing, and complies, naturally, with the requirements of Textile Service. Kentaur develops the embroidery programmes itself, and they are always kept in the customer's history.

TRANSFERS

We use water-based STANDARD 100 by OEKO-TEX® Certified transfers, so that all our printed logos look smart and are soft and stretchable. And of course, they are suitable for Textile Service.

CHIPS

Kentaur offers sewing in or heat application of customers' own chips in the whole of our range.

SHORTENING

Kentaur can make adjustments such as shortening sleeves or aprons and pants legs. Having clothes shortened makes a big difference to the way it feels to wear the clothes, so it is best to have them adjusted for a perfect fit.

OTHER SOLUTIONS

Kentaur offers a number of other VAS solutions, such as:

- Application of emblems
- Packing clothes in bags
- Inserting elastic at the foot on pants
- Stamping – maximum 12 figures.

OUR JOB IS ABOUT CREATING MOMENTS AND MEMORIES

“

IT'S THE MOST BEAUTIFUL JOB TO ME - AND EVERYTHING WE DO IS PART OF THAT JOURNEY. EVERY MOVEMENT, EVERY THOUGHT AND EVERY TOUCH. WE NEED TO BE READY AND GIVE OURSELVES THE BEST CHANCE POSSIBLE TO DELIVER. OUR CLOTHING NOT ONLY PROVIDES OUR CHEFS WITH A COMFORTABLE WORKDAY IT ALSO MAKES US CARRY OURSELVES WITH PRIDE.

Esben Holmboe Bang, Chef and owner,
MAAEMO, Oslo, Norway

I HAD THE CHANCE TO TAKE PART IN CREATING OUR UNIFORMS TOGETHER WITH THE DESIGNER FROM KENTAUR , AND I'M VERY HAPPY WITH THE RESULTS. APART FROM LOOKING SMART THE MATERIAL IS BREATHABLE WITH A LOVELY LIGHT FEEL TO IT WHICH MAKES IT VERY PLEASANT TO WORK IN. THE APRON SOLUTION THAT ELIMINATES THE NEED FOR STRAPS FEELS VERY LIBERATING.

- MADE IN GREEN - valid for quality 103
- VAT dyed quality 103
- Size XS-4XL

For the color Clay Grey, quality 1959, the products are made in a classic shirt quality strengthened with interlining which can be washed and dried according to ISO 15797. It is an advantage to use a short drying time and maybe lighter steaming / ironing for improvement of the finish and increasement of the product life.

- Size XS-4XL

A medium shot of a man with light brown hair and a beard, smiling warmly at the camera. He is wearing a white long-sleeved button-down shirt and a dark olive-green apron with a belt. The apron has a small rectangular patch on the left chest with the word "KENTUCKY" printed on it. He is holding a dark, textured mug with both hands, looking down at it. The background is a warm, softly lit interior with wooden paneling and a hanging light fixture.

TENCEL™ Lyocell is one of the most distinguished environment friendly material and a great replacement for cotton. TENCEL™ Lyocell fiber comes from the nature and is certified as biodegradable and can be left in the nature as compost, then it is made of cellulose fibre from for example fir- and eucalyptus trees.

The fabrics softness and quality makes it very suitable for work clothes, which you wear close to the body for example pants and jackets which gives great comfort while sitting, standing and bending over, when the working day demands great flexibility during the day.

MODEL PROTECTED

"Our vision in the Danish Gastronomic Union is that our Culinary Team of Denmark must be among the most talented in the world. Through rigorous training and commitment they will secure the top places in international competitions. The food is prepared from top quality ingredients, preferably local Danish products, and food waste must be avoided. These important goals combine perfectly with clothing from Kentaur - who always take the lead with regard to quality, fit and unique Scandinavian design."

JESPER H. SCHMIDT
THE DANISH CULINARY TEAM

"The Stockholm Culinary Team uses clothing from Kentaur, and we are very proud of it, because it has an extremely good quality and fit. When we represent Stockholm in competitions, we want to give an impression of professionalism, and it is supported especially by Kentaur."

DOUGLAS FAGERMAN
STOCKHOLM CULINARY TEAM

**STOCKHOLM
CULINARY
TEAM**

"I really like the fabric of our new jackets. They fit perfectly, are incredibly comfortable to wear, and I like the cut very much. Last, but not least, they always look smart after each wash. I can warmly recommend the jackets."

KJETIL DALE AAS
BAKERY & PASTRY TEAM, NORWAY

"Skåne Kulinar strives towards the top and invests in quality! We have chosen to work with Kentaur especially because of their quality and fit. When we compete, we represent our sponsors, and therefore we invest in clothes that also lift us towards the top."

LINUS HORNWAL
SKÅNE KULINAR

PROUD SPONSOR OF

"For our team, the clothes are an important element in successful training and competition. With Kentaur it is just "Mise-en-place". Jackets, trousers and aprons are stylish and functional at the same time. As Team Germany we are grateful for the cooperative partnership, and we are well dressed for future challenges."

RONNY PIETZNER
THE GERMAN NATIONAL CULINARY TEAM

"To be part of the world championships, you have to go beyond your own limits, and every detail has to be correct. In the Culinary Team Austria we have deliberately started to collaborate with Kentaur, because their quality, their extremely good comfort, their outstanding style and modern cut make them the perfect match. The members of our team are all unique, and we are therefore very proud to have Kentaur as our personal and professional brand – the most important identifying feature for any CHEF, anywhere in the world, is the white chef jacket!"

MIKE P. PANISI
CULINARY TEAM AUSTRIA

"We are delighted with the quality and comfort of Kentaur work wear. Especially the Active trousers are very popular with the members of our team. The models and the comfort of the chef jackets set new standards and reflect the innovative strength of our national team. We are proud and pleased to collaborate with Kentaur."

FAIRTRADE COTTON AND THE ENVIRONMENT

Fairtrade is a global movement that works for better prices, reasonable working conditions and fair trading terms for cotton growers and workers. The environment also plays an important role for Fairtrade, as they focus on the employees' health and the environmental impact of cotton production. To protect the soil and water, Fairtrade Cotton certified producers are not allowed to use hazardous pesticides. As a clothing manufacturer, we are conscious of our responsibility for people and the environment. We wish to limit our negative environmental impact as much as possible to make the world sustainable. One of the most important tasks is to ensure better working conditions for the people involved in our production, whatever their function. With Fairtrade Cotton we focus on transparency all along the supply chain.

FAIRTRADE – THE CONSUMERS ARE READY

Growing awareness and changing behaviour among consumers show that our customers now want to make a difference too, which is possible when they choose Fairtrade Cotton. Customers want to buy products with a clear conscience, and products which ensure better conditions for the people involved in the production process. We follow Fairtrade standards all along the supply chain, which is checked by the independent third-party company FLOCERT. This helps with transparency for consumers all along the value chain.

**THIS KENTAUR JACKET IS ONE OF MY FAVORITES,
NOT JUST BECAUSE IT IS COMFORTABLE, AND
LOOKS SHARP, BUT ALSO THE MOST DURABLE
JACKET I OWN. BESIDES THAT IT'S ALSO LIGHT
AND THEREFORE IDEAL FOR SOUTH EAST ASIA
AND MIDDLE EAST WEATHER.**

APRONS

A photograph of two women in a bright, modern kitchen. The woman on the left has blonde hair and is wearing a white chef's jacket over a dark apron. She is leaning against a white radiator. The woman on the right has dark hair and is wearing a white chef's jacket over a green apron. She is holding a round metal tray. Both women are smiling and looking towards the right. Large windows are in the background.

PANTS

- 124 Silhouette Guide
126 Black/stripe/pepita pants

SILHOUETTE GUIDE

The shaped silhouette

The shaped silhouette is slim at the knee and bottom, creating a slim look.

The regular silhouette

The regular silhouette is fitting to the body without clinging. Regular is neither too tight or too loose.

The relaxed silhouette

The relaxed silhouette has a loose fit and is looser from hip to bottom.

“

THE REASON WHY I PURCHASED KENTAUR WAS ORIGINALLY FOR THE DESIGN OF THE JACKET AND APRONS. AFTER READING THE CATALOG I FOUND OUT ABOUT THE FAIR TRADE COTTON WHICH WAS ANOTHER SELLING POINT SINCE WE ALL WANT TO SHOW THAT WE CARE FOR OUR PLANET AND THE PEOPLE WHO NEED TO WORK HARD EVERYDAY.

THESE JACKETS, TROUSERS AND APRONS ARE EXTREMELY DURABLE AND IS THE REASON I ORDERED THEM FOR MY ENTIRE TEAM. THE FABRIC DOESN'T SHRINK, STAINS COME OUT EVEN IF LAUNDRY HAS TO USE MAGIC AND AFTER MULTIPLE WASHES, THEY STILL HOLD THE SHAPE AND COLOR. I STILL USE MY KENTAUR JACKETS AND TROUSERS THAT I PURCHASED 4 YEARS AGO, AND THEY STILL FEEL LIKE NEW. **WANT DURABLE COMFORT... ORDER KENTAUR.**

Executive Chef, Dwayne Krisko, One&Only Reethi Rah, Maldives | North Malé Atoll, Maldives, @OOReethiRah

”

ONCE YOU GO KENTAUR YOU CAN'T GO BACK

WORKING IN AN ENVIRONMENT WHERE WE WOULD NORMALLY BE FOR LONG PERIODS AT A TIME IN THE KITCHEN AND ALSO IN FRONT OF THE GUESTS, IT'S VITAL FOR ME THAT THE JACKETS AND APRONS FIT ME COMFORTABLE, WHILST ALSO LOOKING SMART AND CONFIDENT THE JACKETS ARE VERY COMFORTABLE, STYLISH AND EXTREMELY WELL-TAILORED, LOVE THE MATERIAL FEEL GREAT CRAFTSMANSHIP!

Gert Bredenhann, F&B Director, ALFA.CO, Saudi

SIZE GUIDE

- Open the index to the right and find the relevant style number.
- Note the size guide number found next to the style number (e.g. 1B or 2D).
- Measure your body measurements in cm and note these. Follow "How to measure" on next page.
- Go to "Women Body Measurement" or "Men Body Measurement".
- Find the column with the measurements which best match your body measurements.
For tops, the controlling measurements are "Chest" and "Hip" Measurement.
For trousers/skirts, the controlling measurements are "Waist" and "Hip" Measurement.
- To find the recommended size in this specific style number follow the column down to the size guide number.
- Go to our web page www.kentaur.com for information on stock availability.
